

NZCDS POD and OHCDT Dressage Test 2022

Arena Size: 60m x 30m

Working Trot:
The horse should be properly balanced and remain on the bit. The horse should go forward with regular, elastic, and cadenced strides with good hock action. The trot is two-beat on alternate diagonal legs separated by a period of suspension.

Medium Trot
A pace between the working and the extended trots. While remaining on the bit, the horse lengthens and lowers the neck slightly as the strides are lengthened. The medium trot is "rounder" than the extended trot. The steps should be regular and the horse should remain balanced.
